133rd Annual Carlton County Fair Dedication Barry Stipe

In the wonderful world of carnivals you will find Barry, third generation owner of Stipe Shows Carnival. For decades, Barry and his family have been providing the carnival at the Carlton County Fair, bringing joy and laughter to our community. He has helped transform the carnival into a beloved tradition that families eagerly anticipate year after year!

Barry's father and uncle started Stipe Shows Carnival in 1948. Once Barry was old enough, he entered the carnival world with his tilt-a-whirl and famous corndog stand. Barry took over operations in 2006 following in his father and uncle's footsteps. The love of the industry led Barry to sit on multiple committees and boards to better carnivals and fairs. Barry has lovingly been known for his "gift of gab" you can find him around the carnival chatting with all the fairgoers! In 2022 Barry retired and handed down the reigns to his son, Kyle, making this a four-generation business. Although Barry is retired, you can still find him in the ticket booth or alongside his son helping. Be sure to stop and say "hi" to him at this year's Carlton County Fair. We thank you Barry, for bringing Stipe Shows Carnival to our community in Carlton County. Your unwavering dedication has created a beacon of happiness for all to attend the Carlton County Fair!

All Open Class Livestock Exhibitors are required to supply their own bedding & feeding supplies. Fair Veterinarian will be onsite during fair week. Animals are not to be taken into barns until the Barn Superintendent has officially opened the barn and is available to check in the animals.

WARNING

Under Minnesota Law, the sponsor(s) of this livestock activity are not liable for an injury or death of a participant, or spectator resulting from the inherent risks of livestock activities pursuant to Minn. Stat. 604A.12.

Please use common sense and ordinary care when participating or observing livestock activities on these premises.

Rules for Governing Livestock

All livestock exhibited **MUST** be a part of an active livestock production unit within the counties of Pine, Aitkin, Southern St. Louis, or Carlton. No animals that are currently part of production outside of these areas will be allowed. Entry times for Division A through CC are specified in each Division. The right is reserved to close entries before that time. Please note the hour for closing entries. We urge ALL exhibitors to comply in order for the judging to be held on schedule. Call the superintendent of the division for stall information and locations.

Livestock exhibitors must report to the superintendent of the Livestock Department by 8:00 a.m. each day. All livestock must be cleaned and groomed, fit for the show ring.

No Championship ribbons will be awarded for any breed of livestock or herd prizes given unless there is competition in the open classes of at least two farms. Failure to comply may mean a loss of premium. Dairy bulls over one year of age must be secured by a ring in the nose in order to remain on the grounds. Each livestock exhibitor will be responsible for feeding, watering and caring for their own livestock. Bring your own grain, straw and hay. THE DO'S and DONT'S IN PREPARING YOUR VEGETABLE EXHIBIT

SNAP BEANS: Harvest before constrictions appear between seeds, when seeds are about half grown. Ends of pods should not be broken off in picking. Pods should be uniform. Pods may be wiped clean, but not washed.

BEETS, CARROTS, PARSNIPS, RUTABAGAS: Root crops should be mature but not over grown, pithy or coarse in texture. Tops trimmed off 1 1/2 inches above crown. Side roots trimmed off but not the top root. Roots carefully washed but not scrubbed.

BROCCOLI: Heads should be dark or purplish green and compact. Avoid yellow flowers in head. Stems cut about 5 inches from top of head.

CABBAGE: Stems cut about 1/4 inch below the head. Remove blemished or broken leaves but care should be taken not to peel the heads too much. A few outside wrapper leaves are desirable. Specimens may be washed.

CAULIFLOWER: Heads should be white, compact, and free of small leaves and ricy texture. Stems cut so as to leave 4 to 6 leaves. Outer leaves trimmed to 1 to 2 inches above the white head. Use soft bristled brush to remove dirt from heads.

CELERY: Remove roots of stalk and trim butt to form a triangle or pyramid. Trim diseased and broken leaves on outside until color is uniform.

SWEET CORN: Select ears that are well filled out to the tip. Kernels should be milky and juicy. Remove outer husks but allow a short shank and the inner husks to remain.

CUCUMBERS: Pickling: select fruits 3 to 5 inches long. Specimens should be the same stage of maturity and uniform in size, shape and color. Slicers: select fruits that are straight and stems = 1/2", dark green, and 6 to 10 inches long. They should be uniform in size, shape and color.

KOHLRABI: Remove roots just below the ball. Remove all but the upper 4 to 6 leaves. Select specimens that are uniform, medium size, and not hard or woody. Skin should be easily punctured by thumbnail. They should be clean, but not washed.

ONIONS: Have specimens mature and thoroughly cured. The neck should be small. Do not peel to give slick appearance. Only such outer scales that are broken or discolored should be removed. Small basal roots should be left intact but trimmed to uniform length of 1/2 inch. Wipe or brush but do not wash.

POTATOES: Tubers should be uniform in size, color and shape. Washing is permitted but do not blemish the skin by scrubbing. Avoid specimens with defects or disease.

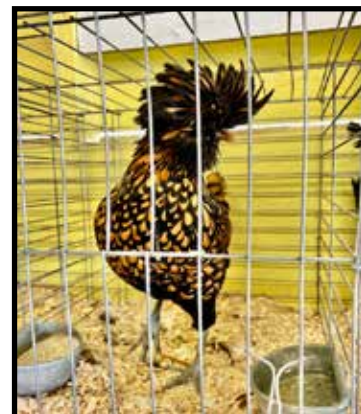

RHUBARB: Select specimens that are straight, uniform and unblemished. Stalks should be pulled from the plant, not cut. Trim the leaf blade to about one inch above the stalk.

SUMMER SQUASH: Select small to medium size fruits when the rind is soft and easily punctured with thumbnail. Leave about 1/2 inch of stem and wipe fruits clean.

WINTER SQUASH and PUMPKINS: Select mature specimens where the rind resists the pressure of the thumbnail. Fruits should be free of defects. Leave stem attached to the fruits.

SWISS CHARD: Select plants that are fresh, crisp and have bright green leaves. Trim off roots and trim butts to pyramid shape. Trim off diseased and broken leaves on the outside until the color is uniform.

TOMATOES: Select fruits that are uniform in size, shape and color. Fruits should be perfectly shaped and free of cracks or blemishes.
